Re: Letter of Endorsement, Kim Short, Volusia County School Board, District 3

Dear Kim,

I hope this letter finds you and your family in good health and spirits this holiday season. Please accept this letter as official endorsement of your candidacy for the Volusia County School Board, District 3 Representative.

For more than 20 years it has been an honor and a privilege for Julie and I to know you. We have witnessed your passion and dedication in serving our community and schools. Your tireless efforts to volunteer where needed and work as a community advocate for our schools has been amazing and unmatched. You have emersed yourself in civic organizations, non-profit boards, as well as school PTA groups. We strongly believe that your background, experience, and relentless drive make you the absolute best choice for a position that demands effective representation for our children, teachers and taxpayers.

I would normally wish a person best of luck in an effort like this, however this is a process and a position in which luck will not provide the results our community needs. That will only be achieved through hard work, dedication, perseverance, and the willingness to listen to our community stakeholders. I am confident that you have all those qualities and skills needed to be our next District 3 Volusia County School Board Representative.

Happy New Year to you and your family!

Sincerely,

Scott Stiltner
